

# 海洋科学集刊 第 31 集

(1990 年 10 月)

## 目 录

|                                         |                                 |
|-----------------------------------------|---------------------------------|
| 白沙口潮汐电站前海区泥沙冲淤规律及防淤对策的研究·····           |                                 |
| ····· 林宝荣、杨光复、李 凡、周天成、韩有松、张铭汉 ( 1 )     |                                 |
| 南海西部灾害性地质研究·····                        | 李 凡 ( 25 )                      |
| 台湾海峡中、北部海域夏季温、盐度的垂直分布类型和细结构·····        |                                 |
| ····· 张启龙、翁学传、李鹏程 ( 51 )                |                                 |
| 江豚声信号的记录与分析·····                        | 张思照、宋政修、齐孟鸢、许兰英、徐如彦 ( 63 )      |
| 青岛港三突蛀木水虱繁殖习性的研究 ·····                  | 黄修明、尹建德、 <u>张枫轩</u> 、彭树杰 ( 75 ) |
| 东海水母类、浮游贝类及被囊类的垂直分布 ·····               | 高尚武 ( 83 )                      |
| 渤海蓝点马鲛食物链结构的研究·····                     | 李 军 ( 93 )                      |
| 东海鱼类的复殖吸虫 V. 寄生于石首鱼类体内的两种新吸虫·····       | 申纪伟 ( 109 )                     |
| 长江口区鱼类的复殖吸虫·····                        | 申纪伟 ( 115 )                     |
| 山东和浙江沿岸唇口类(苔藓虫)三新种·····                 | 刘锡兴 ( 121 )                     |
| 中国近海合甲虫属一新种 ·····                       | 孙道元、陈必达 ( 129 )                 |
| 胶州湾多毛类名录及新纪录的描述·····                    | 孙道元 ( 133 )                     |
| 浙江近海裸鳃类的研究 ·····                        | 林光宇、尤仲杰 ( 147 )                 |
| 中国近海锉蛤科的研究·····                         | 王禎瑞 ( 163 )                     |
| 中国近海隔鳃类的研究 I. 杓蛤科·····                  | 徐凤山 ( 177 )                     |
| 东海深水区双壳类软体动物·····                       | 徐凤山 ( 185 )                     |
| 中国北部近海涟虫目的初步研究 ·····                    | 刘 恒、刘瑞玉 ( 195 )                 |
| 中国长臂虾亚科研究 II. 长臂虾属、白虾属、小长臂虾属、细腕虾属 ····· |                                 |
| ····· 刘瑞玉、梁象秋、严生良 ( 229 )               |                                 |
| 渤海辽东湾现代沉积速率和沉积通量 ·····                  | 李凤业、袁 巍 ( 267 )                 |

# STUDIA MARINA SINICA, No. 31

(Oct., 1990)

## CONTENTS

|                                                                                                                                                         |                                                                                         |
|---------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------|
| Study on the Erosion and Accumulation of Sand in Front of the Baishakou Tidal Power Plant.....                                                          | Lin Baorong, Yang Guangfu, Li Fan, Zhou Tiancheng, Han Yousong and Zhang Minghan ( 23 ) |
| Study on Hazard Geology in West Part of the Northern South China Sea .....                                                                              | Li Fan ( 49 )                                                                           |
| The Vertical Distribution Patterns and Fine Structures of Temperature and Salinity in the Middle and Northern Taiwan Strait in Summer .....             | Zhang Qilong, Weng Xuechuan and Li Pengcheng ( 61 )                                     |
| Record and Analysis of Acoustic Signals of the Finless Black Porpoises ( <i>Neophocaena phocaenoides</i> ) .....                                        | Zhang Sizhao, Song Zhengxiu, Qi Meng'e, Xu Lanying and Xu Ruyan ( 74 )                  |
| Study on the Breeding Habits of <i>Limnoria tripunctata</i> Menzies in the Qingdao Harbour .....                                                        | Huang Xiuming, Yin Jiande, Zhang Fengxuan and Peng Shujie ( 81 )                        |
| The Vertical Distribution of the Medusae, Pteropoda, Heteropoda and Thaliacea in the East China Sea .....                                               | Gao Shangwu ( 92 )                                                                      |
| The Food Chain Structure of Japanese Spanish Mackerel in the Bohai Sea .....                                                                            | Li Jun ( 106 )                                                                          |
| Digenetic Trematodes of Fishes from the East China Sea V. Two New Parasitic Trematodes from Sciaenoid Fishes .....                                      | Shen Jiwei ( 112 )                                                                      |
| Digenetic Trematodes of Fishes from the Changjiang River Estuary.....                                                                                   | Shen Jiwei ( 119 )                                                                      |
| Three New Cheilostome Bryozoans from the Coasts of Shandong and Zhejiang Provinces .....                                                                | Liu Xixing ( 125 )                                                                      |
| A New Species of <i>Synelmis</i> from Offshore Waters of China .....                                                                                    | Sun Daoyuan and Chen Bida ( 131 )                                                       |
| New Records and List of Polychaeta from the Jiaozhou Bay .....                                                                                          | Sun Daoyuan ( 146 )                                                                     |
| Studies on Nudibranchia from the Zhejiang Coast.....                                                                                                    | Lin Guangyu and You Zhongjie ( 161 )                                                    |
| Study on Offshore the Species of Family Limidae from Waters off China .....                                                                             | Wang Zhenrui ( 173 )                                                                    |
| Study on the Septibranchia from Chinese Waters I. Cuspidariidae.....                                                                                    | Xu Fengshan ( 184 )                                                                     |
| The Bivalvia in the Deep-Water Area of the East China Sea.....                                                                                          | Xu Fengshan ( 193 )                                                                     |
| Study on Cumacea (Crustacea Malacostraca) of the Offshore Waters of North China .....                                                                   | Liu Heng and Liu Ruiyu (J. Y. Liu) ( 225 )                                              |
| A Study of the Palaemoninae (Crustacea Decapoda) from China II. <i>Palaemon</i> , <i>Exopalaemon</i> , <i>Palaemonetes</i> and <i>Leptocarpus</i> ..... | Liu Ruiyu (J. Y. Liu), Liang Xiangqiu and Yan Shengliang ( 261 )                        |
| The Recent Sedimentation Rates and Sediment Flux in the Liaodong Bay .....                                                                              | Li Fengye and Yuan Wei ( 273 )                                                          |
